CHINOOK APPLICATION DOCUMENTATION

INTRODUCTION

The Chinook web application is an application that allows the chinook employees to manage albums within their company database. Its easy interface makes this a hassle-free experience for the users.

NAVIGATION

To view all albums: Click on the H**ome** hyperlink at the top right or click on the **chinook logo** at the top left and scroll down to albums section.

To add Album: Click on the **Album** hyperlink at the top right.

To view all artist: Click in the Artist hyperlink at the top right.

FEATURES AND FUNCTIONALITY

- Creating, updating, and deletion of albums.
- Creating, updating, and deletion of artist.
- Add additional tracks to album as well as modification or removal of existing tracks.
- Search for artists by name. This gives quick access to information needed.

GUIDE TO USING THE APPLICATION

Home

This is the UI (user interface) displayed on your first visit to the application. At the top right are navigation buttons (home, album, and artist) that enable navigation to other actions. On this page, you can see all the existing albums and perform various operations like (view, update, and delete) albums.
